

The Medieval Village of Greccio

We walked into the Village of Greccio this afternoon. Greccio is about 2 miles from the Oasis di Bambino Gesu where we are staying. The pensione is about a half mile from the Sanctuary of Greccio.

A view of the Sanctuary from the road to Greccio.

The village:

There are two Catholic Churches in the small village. The tall white building on the right is the Church of St. Mary and the one on the hill is the Church of St. Francis.

The village is built on a mountainside.
